

Sustainable Nanotechnology Conference 2015

Wednesday, March 11, 2015

6C Environmental exposure, release & fate - Breakout 3 (4:00 PM - 6:00 PM)

time	[id] title	presenter
4:00 PM	[98] Single particle ICPMS based methods for tracking environmental leaching of nanoparticles from consumer products	VON DER KAMMER, Frank
4:24 PM	[99] Novel method to address the environmental impact of nanomaterials in the use phase: the SUN approach	SCIFO, Lorette
4:48 PM	[10] Interactive spICP-MS data treatment using Nanocount	Mr CORNELIS, Geert
5:12 PM	[100] Nanotechnology : the missing piece of the life puzzle	RIOS, Gilbert M.
5:36 PM	[101] Speciation and mechanisms of nanomaterial release from nano-enabled products during their life cycle: Self-cleaning cement as building material case study	BOSSA, Nathan
