

# Sustainable Nanotechnology Conference 2015

## Monday, 9 March 2015

### 1C Life Cycle Thinking & LCA (11:30 - 13:30)

time	[id] title	presenter
11:30	[10] Contribution of nanotechnology and nanomaterials to increased sustainability of industrial products and processes	RICKERBY, David G.
11:50	[25] Brazilian scenario in sustainable nanotechnology	HORTA ARDUIN, Rachel
12:10	[26] New framework accounting for a spatial differentiation in the calculation of characterisation factors for the toxicity potential of nanomaterials	SALIERI, Beatrice
12:30	[27] Approach for Human Toxicity and Freshwater Ecotoxicity midpoints determination for their inclusion in Life Cycle Assessment of nanotechnology-based products	VAZQUEZ-CAMPOS, Socorro
12:50	[28] Precious metal recovery from nanowaste for sustainable nanotechnology: Current challenges and life cycle considerations	VIKESLAND, Peter
13:10	[29] From laboratory to industrial scale: scale-up calculations of chemical processes for LCA	PICCINNO, Fabio
