

# Sustainable Nanotechnology Conference 2015

## Monday, 9 March 2015

### 1B Ecotoxicology, effects on ecosystem services & ecological risks: Parallel session (11:30 - 13:30)

time	[id] title	presenter
11:30	[15] Fish cell lines as in vitro models for ecotoxicology testing of engineered nanomaterials	BERMEJO-NOGALES, Azucena
11:54	[21] Mechanisms underlying the enhancement of toxicity caused by coincubation of ZnO and Cu nanoparticles	FRENANDEZ-CRUZ, Maria Luisa
12:18	[22] Copper nanoparticles or compounds impact agronomic and physiological parameters in cilantro ( <i>Coriandrum sativum</i> )	ZUVERZA-MENA, Nubia
12:42	[23] Trophic Transfer Potential of Nanoparticles In Terrestrial Food Chains	WHITE, Jason
13:06	[24] The effects of nanomaterials of individual species and ecosystem service	LITTLE, Simon
