

# Sustainable Nanotechnology Conference 2015

## Wednesday, 11 March 2015

### 5B Tracking NM in complex matrices - Breakout 2 (11:00 - 13:00)

time	[id] title	presenter
11:00	[79] Detection of engineered cerium oxide nanoparticles in soil	VON DER KAMMER, Frank
11:20	[80] Plasmonic imaging of single nanoparticles: project NANODETECTOR	MIRSKY, Vladimir
11:40	[81] Sensors and Emerging Technologies for Tracking Nanomaterials in Complex matrices	SADIK, Omowunmi
12:00	[82] Tracing and Quantitative Measurements of Inorganic Nanoparticles Amounts in Biological Tissues by Nuclear-Physical Methods	ANTSIFEROVA, Anna A.
12:20	[83] The meaning of Characterization, and Biological Identity	DAWSON, Kenneth
12:40	[84] European standardization project on detection and identification of nano-objects in complex matrices	STINTZ, Michael
