## Providing remote access to the LIGO interferometers with EPICS based tools

*Wednesday, May 20, 2015 10:45 AM (5 minutes)*

A review of how the EPICS tools are used to provide remote access to the LIGO interferometers. This will include discussion of the current tools being used, the customizations that we have made, and the effort to easily package and distribute the tools to a distributed user base.

**Primary authors:** Mr HANKS, Jonathan (LIGO, California Institute of Technology); THORNE, Keith (LIGO Livingston Observatory)

**Presenters:** Mr HANKS, Jonathan (LIGO, California Institute of Technology); THORNE, Keith (LIGO Livingston Observatory)

**Session Classification:** Five Minute Talks
