

Electroweak Precision Physics

Friday, 23 June 2017 09:00 (45 minutes)

The analysis of the global electroweak precision program is reviewed. Special attention is given to recent measurements of the weak mixing angle both at low and high energies, as well as the W boson mass. Other topics, such as the status of the anomalous magnetic moment of the muon are also addressed.

Primary author: Prof. ERLER, Jens (IF-UNAM)

Presenter: Prof. ERLER, Jens (IF-UNAM)

Session Classification: Joint Working Group: Electroweak / Flavor and Precision

Track Classification: Joint Working Group Electroweak / Flavor and Precision
