

# The 26th International Workshop on Weak Interactions and Neutrinos (WIN2017)

## Friday, 23 June 2017

**Joint Working Group: Astroparticle and Neutrino Physics - Pacific Ballroom ABC (14:20 - 15:50)**

**-Conveners: Valentina De Romeri**

| time  | [id] title  | presenter              |
|-------|---|------------------------|
| 14:20 | [19] Fast neutrino flavor conversions near the SN core  | Mr MIRIZZI, Alessandro |
| 14:35 | [152] Recent results from the IceCube Neutrino Observatory                                    | Prof. GRANT, Darren    |
| 14:55 | [64] KM3NeT/ORCA: Measuring neutrino oscillations and the mass hierarchy in the Mediterranean | Mr BOURRET, Simon      |
| 15:10 | [125] Neutrino Portal Dark Matter   | Dr MCKEEN, David       |
| 15:30 | [175] Coherent neutrino-nucleus scattering, dark matter, and Beyond Standard Model physics    | DENT, James            |
