Science

Welcome and Congratulations!

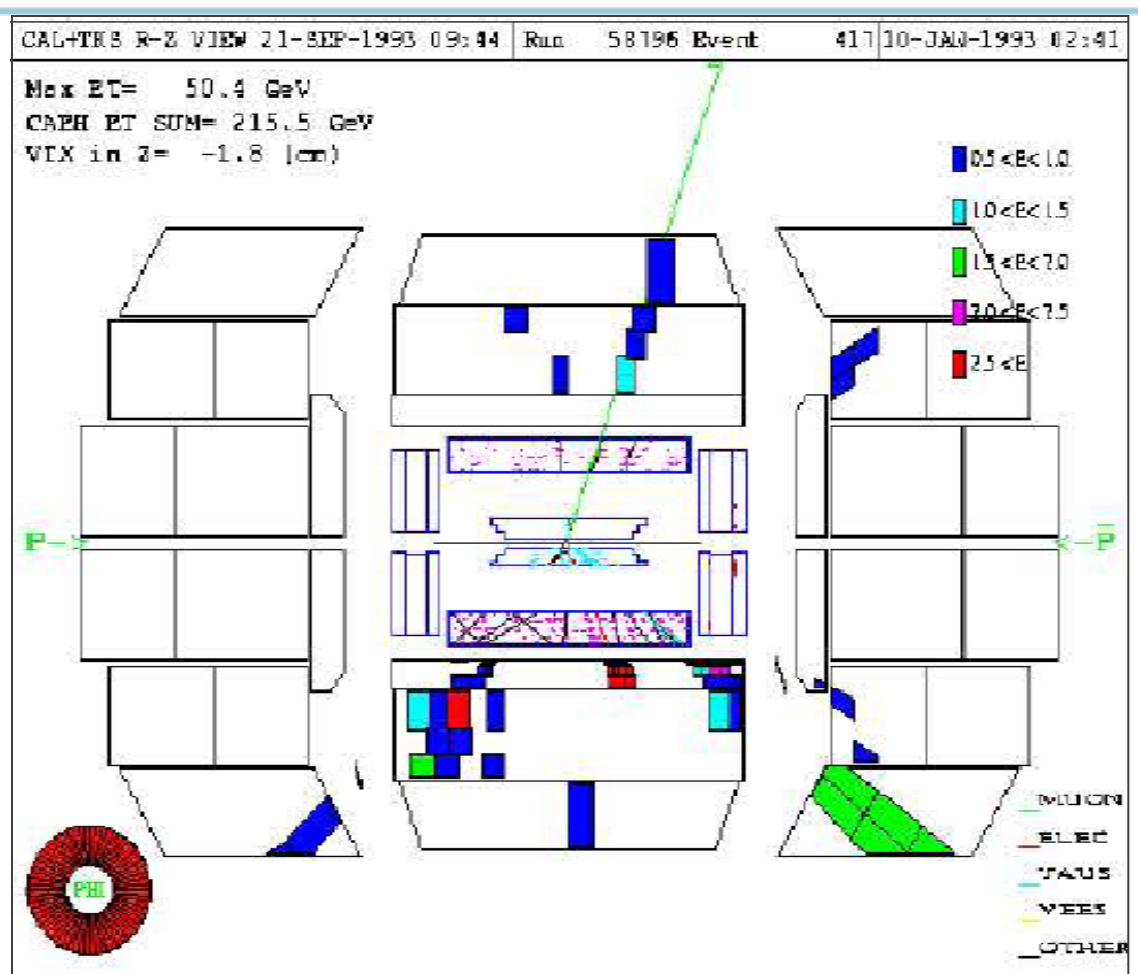

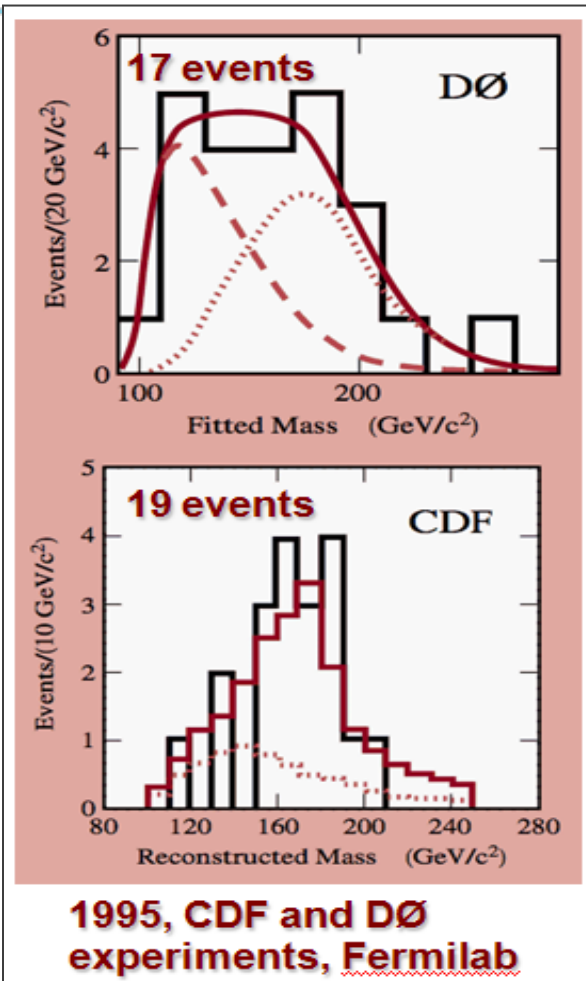

Greg Bock

D0 Special Collaboration Meeting June 10 2014

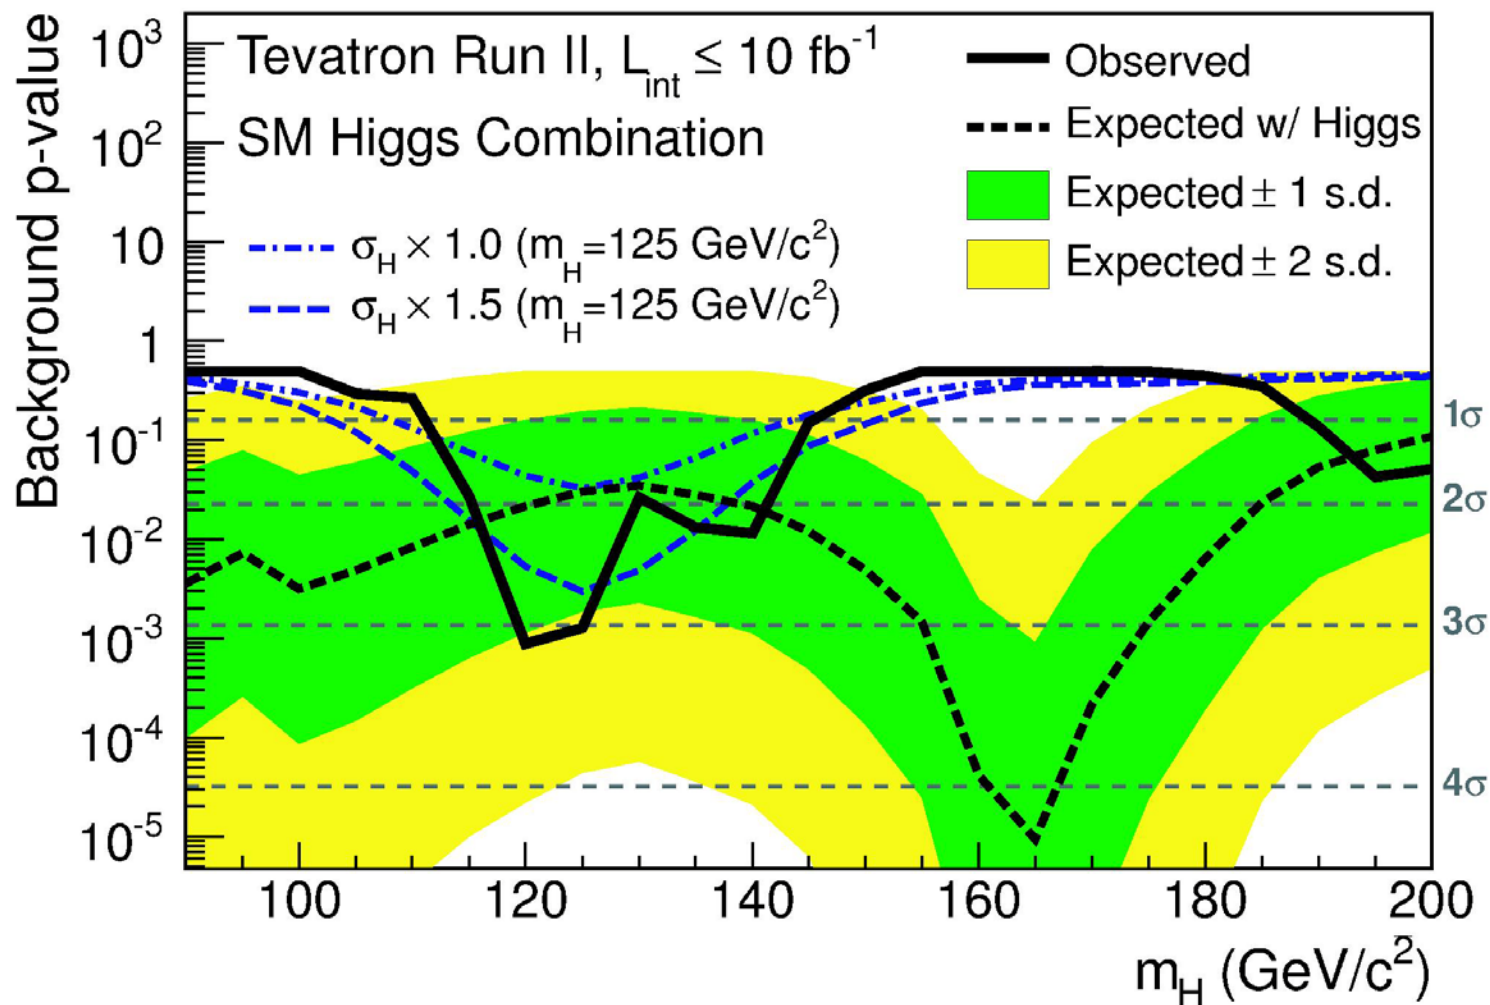

How It All Started – 1985

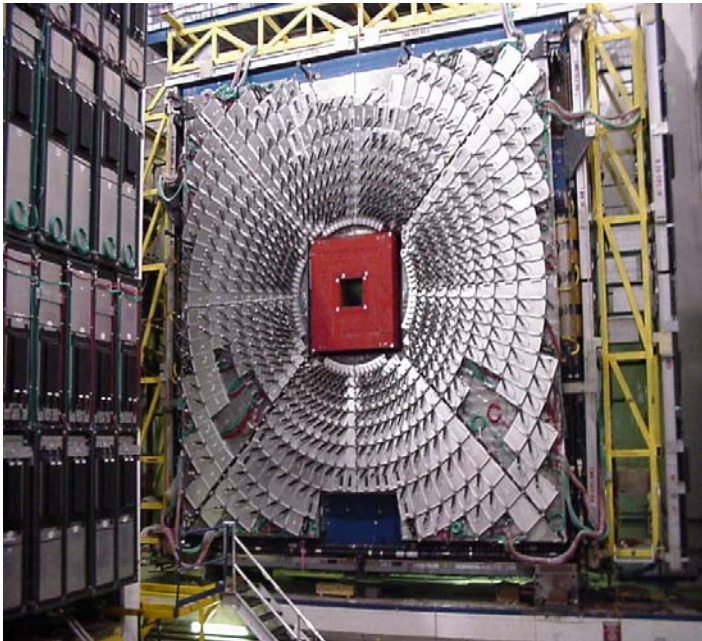

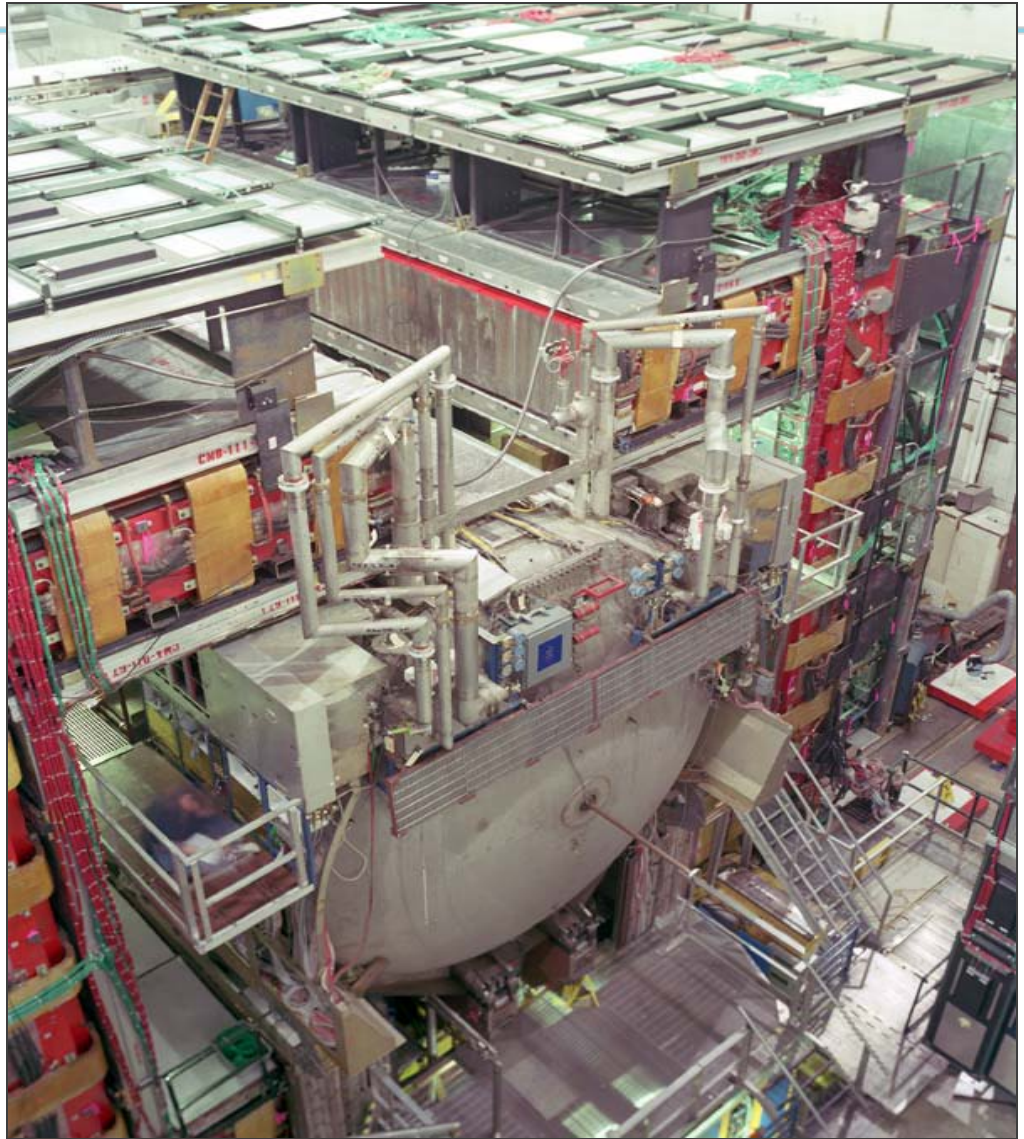

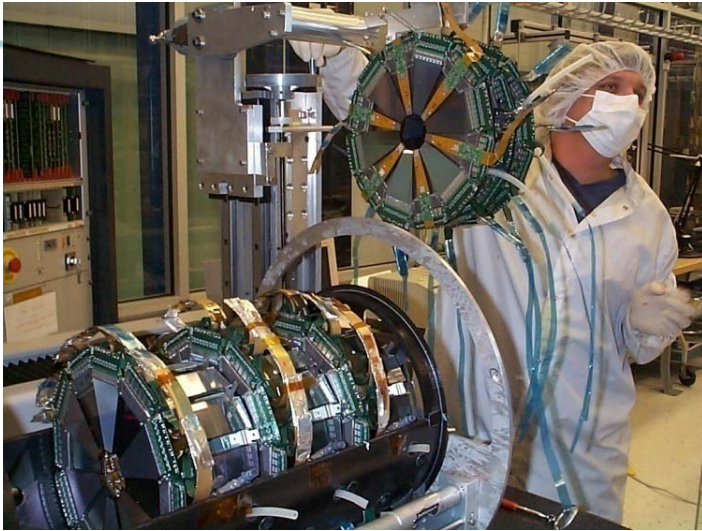

Top Quark Discovery - 1995

Higgs Boson Evidence - 2012

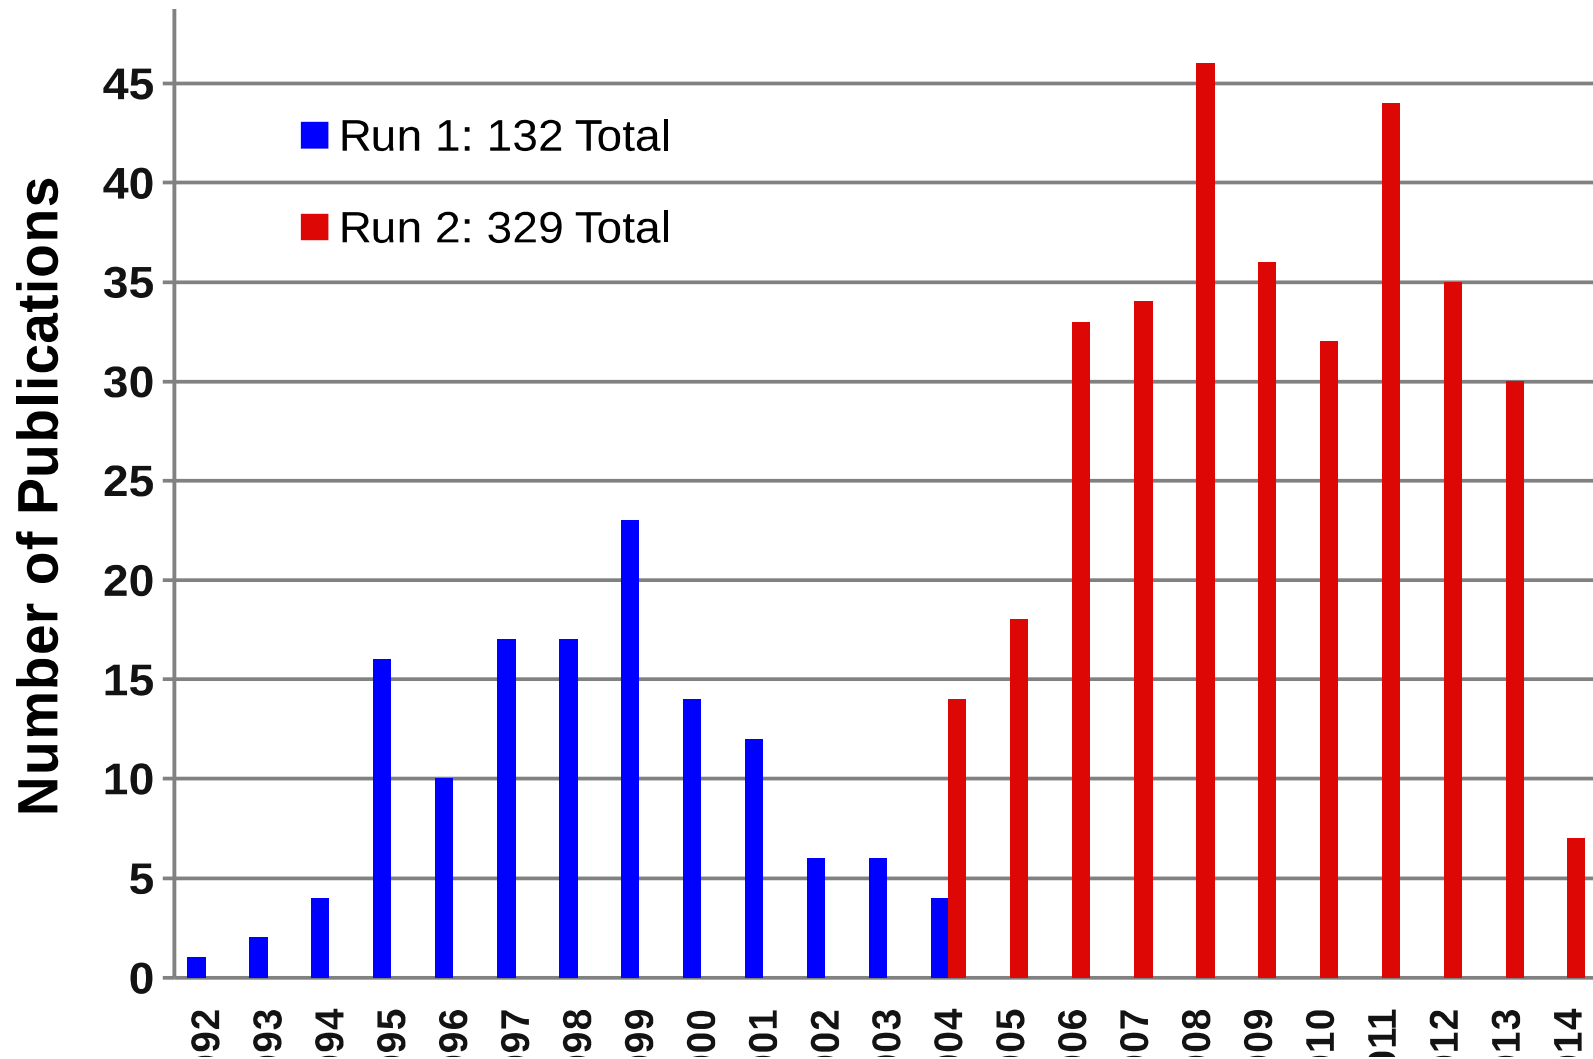

New Generation of Detectors Developed

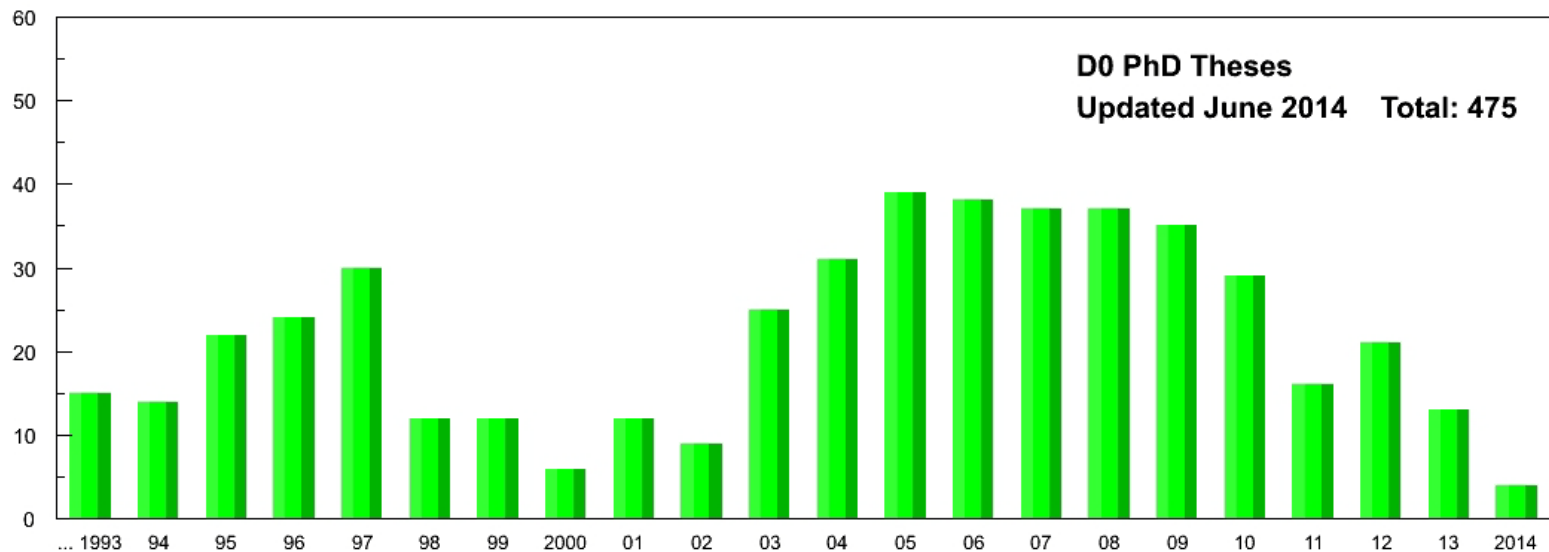

Exemplary International Collaboration

Legacy Set of ~500 Publications

Large Number of PhDs Defended

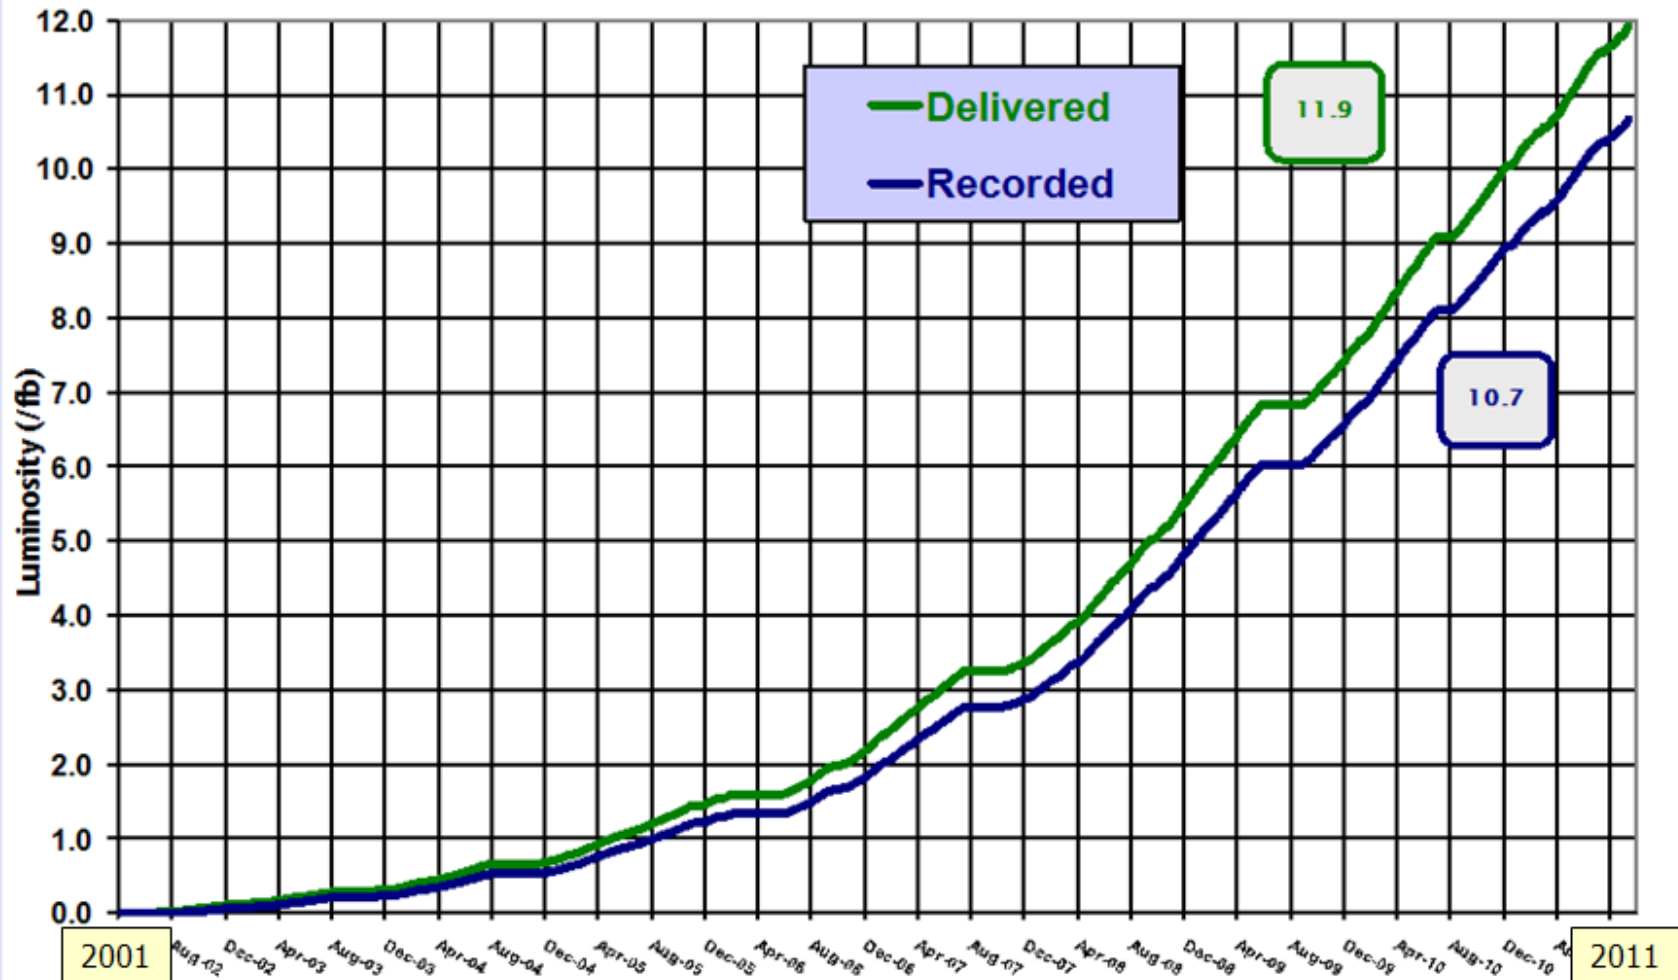

The Laboratory Delivered 12 fb⁻¹ to DZero

Run II Integrated Luminosity

19 April 2002 - 30 September 2011

Outstanding, Multi-decade achievement

Director sends his greetings:

- The two Tevatron experiments complemented one another well yielding a terrific legacy with the discovery of the Top as its crowning achievement
- Testifying to that today before House of Representatives House Committee on Science, Space, and Technology on implementing the strategic vision laid out in the P5 plan

Have a great collaboration meeting!
