April 30, 2012

Dr. Piermaria Oddone, Director
Fermilab
P. O. Box 500
Batavia IL 60510

Dear Pier,

I am writing to you in my role as Chair of the LBNE Institutional Board (IB). The LBNE IB requested that I inform you of the resolution that it unanimously approved at its meeting this past Saturday (April 28).

The LBNE Institutional Board strongly supports inclusion of at least one underground Far Detector option in the Final Report of the LBNE Re-Configuration process.

Best regards,

Marvin L. Marshak
College of Science and Engineering Professor
Morse Alumni Professor
